

Students may work as partners. Must have their own campaign posters (President and Vice President) No more than groups of 2

Global Warming Project Check List:

1. Create a digital presentation to support your final campaign speech to **clearly present** your plans to solve this problem. (powerpoint, prezzi, etc.)
2. Explain **what** global warming is and **why** it is happening (or not happening):
 - a. Include Data/Tables/Charts/Pictures
3. Explain how global warming is impacting different regions of the earth (give specific examples):
 - a. Animals, Plants, Humans, Ecosystems:
4. Create your proposal as president:
 - a. How will you reduce global warming/climate change?
 - b. What energy sources are you converting to?
 - c. How will you and the American people pay for this?
 - d. What changes will “we the people” see if we vote to approve your proposal?
 - e. Will you have other countries involved? Meetings or councils?
5. Prepare for a debate to **present** your ideas of how to solve this problem and be ready to answer questions from potential voters.
6. Lastly, create your campaign poster. Show us how your plan in an illustration or explanation. Persuade the people to vote for you and your plan.
